View the status of the dosimeter in the "Status" column.

The screenshot shows a table titled "Participant Dosimeters" with a "Status" column highlighted. The status "Active Monitoring" is circled in orange. The table includes columns for Serial Number, DDE, LDE, SDE, EXT, Status, Dosimeter Location, and Used. The status column shows values like "Active Monitoring", "Awaiting Receipt", and "Processing Dose". The "Used" column shows values like "Chest" and "Fetal". The table has 6 rows and is set to show 100 rows per page.

Serial Number	DDE mrem	LDE mrem	SDE mrem	EXT mrem	Status	Dosimeter Location	Used
6792164B	--	--	--	--	Active Monitoring	Chest	Used
3575315B	--	--	--	--	Awaiting Receipt	Fetal	Used
4175210B	--	--	--	--	Awaiting Receipt	Chest	Used
5344105B	--	--	--	--	Awaiting Receipt	Fetal	Used
3927868A	--	--	--	--	Awaiting Receipt	Fetal	Used
5344079B	--	--	--	--	Awaiting Receipt	Chest	Used

Tip! You can use the filters at the top of the "participant dosimeters" screen to narrow your search results if you wish. The status for any given dosimeter will be one of the 4 following options: **1) Active monitoring** - the dosimeter is still in use/the wear period has not ended yet. **2) Awaiting Receipt** - the wear period has ended and Landauer is waiting to receive the dosimeter from your facility. **3) Processing Dose** - the dosimeter has been received and is now being processed/read for dose results. **4) Reported** - the dosimeter has been processed and the report is now available to view/download.
